The Horse Encyclopedia presents a comprehensive catalog of over 400 breeds, meticulously describing their unique characteristics, origins, and suitability for various purposes. From the sleek Thoroughbreds known for their racing prowess to the gentle Shire horses renowned for their strength,

each breed is brought to life with captivating descriptions and stunning photography.

## **Mastering the Art of Horse Care and Management**

"The Horse Encyclopedia" empowers you with the practical knowledge and skills essential for the well-being of your equine companion. Its expert guidance covers all aspects of horse care, including nutrition, grooming, hoof care, and disease prevention. Learn how to establish a strong bond with your horse through effective training techniques, ensuring a harmonious and rewarding relationship.

# HORSE Grooming

WHERE	WHAT	HOW
	Hoof pick	<b>Start</b> at the heel of the hoof and pick between the toe and wall removing all rocks, dirt and debris. Make sure to clean the groove on either side of the widest part of the hoof.
	Curry comb	<b>Move</b> with smooth, firm strokes in the direction of the hair to the neck.
	Hard brush	<b>Brush</b> in short, straight flicking motions to allow the bristles to get right through the coat and work the dirt and sweat out of the hair and skin towards the tail.
	Soft brush	<b>Finish</b> the body grooming by brushing the face and neck in an upward motion for the neck and body air-flow.
	Sponge / Cloth	<b>Using</b> a damp sponge or cloth, gently wipe your horse's eyes and clean out the nostrils. You will also need to clean beneath the tail with a different sponge or cloth.
	Mane tooth comb	<b>With</b> a wide tooth comb or brush, detangle the mane just before you begin to groom. Take your way through the mane with the comb or brush, detangling the mane in sections.
	Fly spray	<b>Yew</b> eyes with fly spray and keep your horse well hydrated to keep them sweating infection from being and curing your horse's skin.

## EQUIPMENT CHECKLIST
