

The Oral History of the New York Islanders 1972-1984: A Must-Read for Hockey Fans

The New York Islanders are one of the most successful hockey teams in history, having won four straight Stanley Cups from 1980 to 1983. But their journey to the top was not an easy one. In the early 1970s, the Islanders were a struggling expansion team, playing in a dilapidated arena and drawing small crowds. But all of that changed in 1972, when the team drafted a young defenseman named Denis Potvin.

Potvin was a game-changer for the Islanders. He was a physical presence on the ice, and he could also score goals and set up his teammates. With Potvin leading the way, the Islanders began to improve. They made the playoffs for the first time in 1975, and they reached the Stanley Cup Finals in 1978. But it wasn't until 1980 that the Islanders finally broke through and won their first Stanley Cup.
